

Build Date	02/04/2024
Build No.	1270
Database Date	01/04/2024

► Added ability to purge product stock in settings. This will remove all stock from the system but maintain stock transaction history. Use to reset stock for physical stock check.

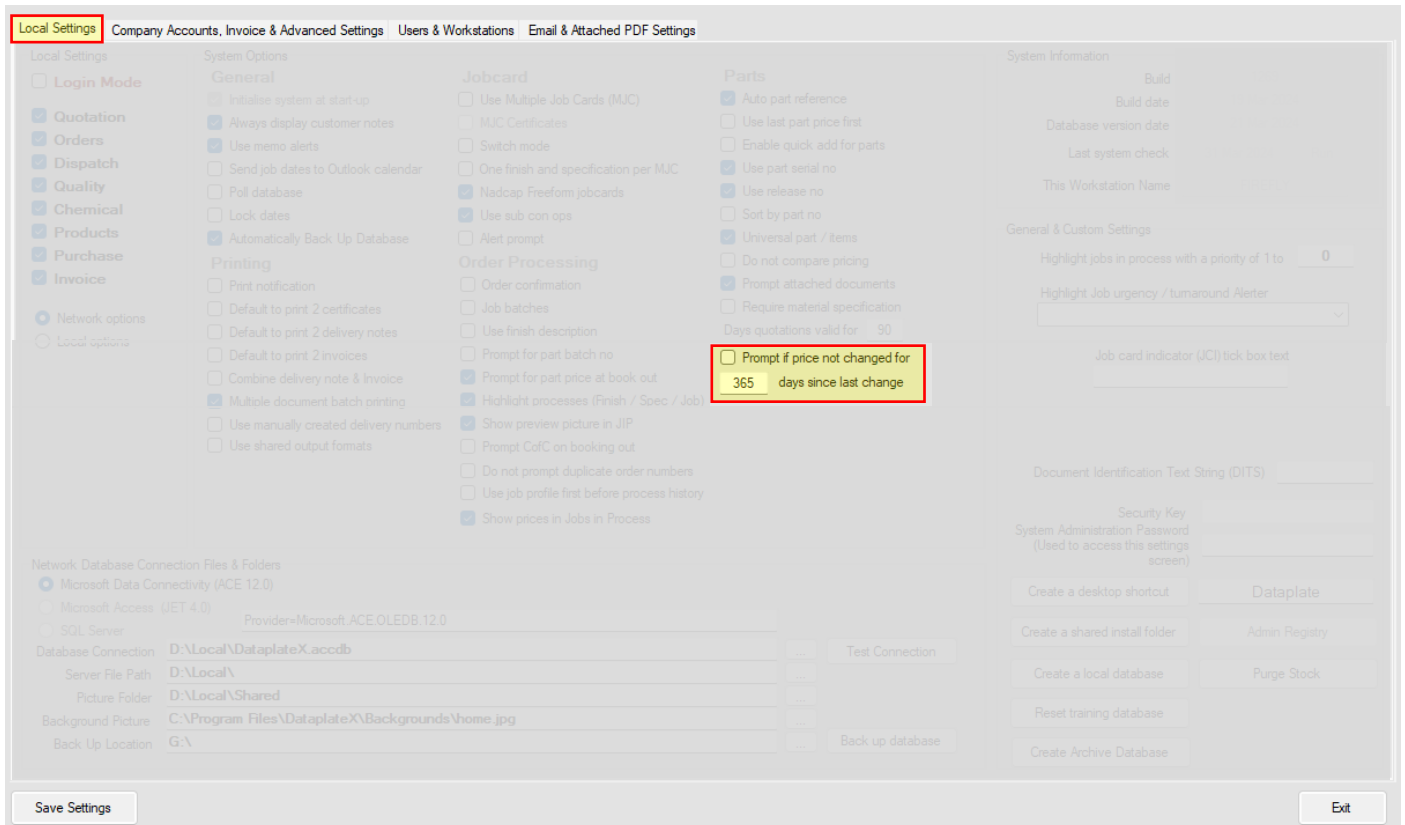

The screenshot shows the 'Local Settings' window with several tabs: 'Local Settings', 'Company Accounts, Invoice & Advanced Settings', 'Users & Workstations', and 'Email & Attached PDF Settings'. The 'Local Settings' tab is active, showing various configuration options. A 'General & Custom Settings' panel is open on the right, containing fields for 'Highlight jobs in process with a priority of 1 to', 'Highlight Job urgency / turnaround Alerter', 'Job card indicator (JCI) tick box text', 'Document Identification Text String (DITS)', 'Security Key', and 'System Administration Password'. A 'Purge Stock' button is highlighted in yellow and outlined in red. Other buttons include 'Create a desktop shortcut', 'Dataplate', 'Create a shared install folder', 'Admin Registry', 'Create a local database', 'Reset training database', and 'Create Archive Database'. The 'Save Settings' and 'Exit' buttons are at the bottom.

► Added last priced date and previous price fields to Products. Initial date will be date of update to system.

The screenshot shows the 'Product Stock & Supplies' window. The 'Products' tab is selected and highlighted. The window displays various fields for product information, including 'Supplier', 'Product name', 'Product code', 'Product type', 'Package', 'Unit qty', 'Price', 'Price per', 'Unit qty', and 'Total Price'. The 'Last price date' and 'Previous price' fields are highlighted in yellow and outlined in red. The 'Last price date' field shows '31 March 2024' and the 'Previous price' field shows '0.00'. The window also includes a 'REACH section for recording chemical compositions in the product' and a 'Notes' section. The 'Save', 'Reset', and 'Delete' buttons are at the bottom left, and the 'Add New' button is at the bottom right.

► Added global part price review prompt checkbox and review days field in settings. This will prompt the user booking in parts where the price has not changed for a set period of time.

► Added Notes to Tools menu for user and all users (shared notes)
